Authorization for this examiner's amendment was given in a telephone interview with Mr. Krul on 8-23-06.

The application has been amended as follows:

Claim 10, line 1, changed "The cap for use with a" to --A--;

line 2, after "claim 9," inserted --wherein--

Claim 12, line 1, changed "The cap" to --A blind rivet assembly--;

Claim 13, line 1, changed "The cap" to --A blind rivet assembly--.

#### ***Claims Allowable***

Claims 1, 2, 4, 9, 10, 12, 13, 19 and 21-24 are allowable.

#### ***Reasons for Allowance***

The prior art does not disclose the blind rivet having the flange having a domed surface opposite a flat surface with a peripheral undercut tapering inwardly from the domed surface to the flat surfaces and a cap disposed over the flange having an undercut surface snap engaged with the undercut surface of the flange. While the prior

art teaches the features of the claim in separate references there would be no motivation for the combination.

### **Response to Remarks**

Applicant's remarks arguing the 112 first paragraph rejection that was set in the previous office action, has been made moot by the amendment which no longer requiring the contact of the domed surface.
